PROPOSALS FOR SUPPLIES. MINT of the United States, Superintendent's Office, Carson City, Nevada, May 1, 1891. Sealed proposals will be received by the undersigned until 12 o'clock noon on the 20th day of June, 1891, for furnishing such supplies as may be required from time to time by this Mint during the twelve months ending June 30, 1892, embracing acids and other chemicals, wood, charcoal, salt, borax, soap, oils, crucibles, covers, stirrers, buck gloves, cottons, dry goods, metals, hardware and other necessary supplies. Schedules and blank forms for proposals, with information as to the quantity of each article that will probably be required, will be furnished on application. Proposals will be considered separately on each article, and upon comparison of the prices and samples of articles furnished, and will be accepted as to the whole or a part, as may be deemed for the best interests of the Government. The right to reject any or all proposals being reserved. Regulations will be made on the parties whose bids may be accepted and the articles must be furnished as required without delay. Proposals to receive consideration must be accompanied by a sufficient bond, with one or more sureties, and by samples of such description of the articles as will clearly designate the kind and quality. Proposals should be addressed to the undersigned and inclosed, with a copy of the advertisement, in a sealed envelope endorsed "Proposals for Supplies." The bids will be opened and registered at the hour named in the presence of bidders and the officers of the Mint. T. R. HOFER, Superintendent U. S. Mint Carson City, Nevada. m14tf

Jim Rynders, "the Faro King," who died at Alameda last week, left an estate valued at \$67,000. Rynders lost \$100,000 at one sitting several years ago, but evidently he had sense enough to quit the game before he lost all—which is more than most gamblers have.

Bank failures are now the order of the day. The more the merrier—they are educating the people to the conclusion that there is something radically wrong with the present financial policy of the United States. Every failure is an additional boost to the cause of silver.—Silver State.

BRAY WINS.

Judge Hawthorne Decides That Gravel and Dirt are "Supplies."

There was a large crowd at the Justice Court yesterday to hear the evidence in the case of Bray vs. the County, in his suit for road work, for which he demands \$30.

Mr. Bray, the first witness, testified that he and Mr. Muller examined the road near Gardner's and Mr. Muller had ordered him to fix it. Had no regular order from the Board. It was in the afternoon on Friday. It was a washout on the side of the road. Did not begin to fix the road until Monday. Considered it a case of emergency, but wasn't ready to fix it until Monday. Order to fix it was not made in meeting. A man was working there when he got there. Think muskrats did the damage.

Ed. Williams was the next witness:

I did some work on Gardner's road in March and saw Mr. Bray's team at work there.

The road needed repairs. The water leaked under the culvert. I called the attention of the Commissioners to the trouble and ran the handle of my shovel down and found whoever had done the work on the road had filled up the hole with a lot of coal oil cans, understood Mr. Bray did considerable work there. It was a great improvement. The road might have lasted until now if it had not been fixed. Mr. Muller ordered me to fix the place. Don't think that it was a case of emergency. Muller and Bray both agreed that there was not much to do. The work could have waited for five days. The road could have been traveled at night. There was a place at the edge of the road where we put a board up. I fixed this place myself before Bray came out there, but the work is still unfinished.

A careful man who kept in the road would not be in danger.

Mr. Elliot was the next witness. He saw Bray's teams repairing the road. There was a clayhole on the road that gave teams a great deal of trouble. If two teams met there in the night one would get in the hole. In the daytime it was not dangerous.

I complained to Mr. Bray about the hole.

Mr. Bray's work was a great improvement to the road.

To the Court—In the day time two teams could pass in safety but not in the night.

Commissioner Muller testified as follows:

I went to the place in March with Mr. Bray and saw there was a bad place in the road; I told Mr. Bray to repair it as soon as possible. It required immediate repairs.

The repairs were well made and no unnecessary work done.

No resolution was ever passed by the Commissioners in reference to the road. I considered it a case of emergency. Told him to go to work as soon as possible. I think it was four or five days after that he went to work.

Knew he had teams that could do the work. No complaints ever reached the Board that there was an emergency. Mr. Ed. Sweeney testified that he saw Bray's teams on the road, saw him working there. Mr. Olding saw the road. It was dangerous at night, Bray's work was a great improvement. Was employed by Mr. Bray.

The Plaintiff here rested.

Commissioner Peterson was the first witness for the county.

I knew the Gardner road well; was there before April 1st. The water was washing under the culvert. The holes near the culvert were dangerous if horses stepped into them. The center of the road was good. No case of emergency if a careful driver went over it.

Mr. Gardner—The road was not in good condition in March. I think there had been an emergency there for some time.

The hole was caused by storms, thaw and muskrats. The tin cans were put there to keep the muskrats from gnawing through.

Mr. Bray's work was an improvement to the road.

If they had come to my house and asked me to fill the hole, I could have done it in two hours.

There is still work to be done on the road. The road, however, was passable, but not in good condition.

The evidence being all in, Mr. Summerfield held that there was no contract in the case at all, hence Mr. Bray did not come under the law against Commissioners having

contracts because Mr. Muller without a meeting of the Board had no authority to make a contract and no consideration named.

The District Attorney expressed his surprise at the argument advanced. The plaintiff had started out on the question of emergency and it having been shown that it was not an emergency, they had abandoned the issue. The issue was whether or not Bray had a contract with Ormsby county.

The plaintiff knew that the regular wages were \$6 a day for a man and team as he had always received that amount.

The agreement between Bray and Muller was a contract.

The Plaintiff argued that where a man had no contract to do work he could get his pay. This was simply absurd. The idea that no price being named constituted no contract. If this was good law any agreement made between two parties and no price named invalidated the agreement and you need not pay.

The fact that Bray was suing indicated that he believed he had a contract. If you order a suit of clothes of a tailor and don't name a price you have to pay all the same and the agreement is regarded as a contract.

In Nevada the law is that no Commissioner can have a contract with the county.

The Attorney then read numerous authorities where the Courts had refused to enforce contracts prohibited by law and the Bray contract was prohibited by law.

The Court in deciding the case said that the law allowed a Commissioner to sell supplies to the County in cases of emergency and that he should hold that gravel and dirt come under the head of supplies and he should hold that the plaintiff was entitled to his money and so ordered.

The District Attorney gave notice of appeal to the District Court.

Mackay's Physicians Compromise.

A compromise has been effected over the disputed physicians' bill preferred by Dr. Keeney and Dr. Morse against John W. Mackay for extracting the Rippey bullet and attending him during his resultant illness. Keeney's charge was \$7,500, and Morse's \$5,000. The former agrees to accept \$5,000 and the latter \$3,000. Keeney made forty-five visits, Morse twenty-six. It is said the settlement was reached through the offices of Richard Dey, private secretary to Mr. Mackay. The millionaire at first declared in most emphatic terms that he would not pay the bill nor anything like it, and the physicians were equally firm in determination to secure full charge or nothing. Thus matters stood when Mr. Mackay left for the east. Since then Mr. Dey's diplomacy has been brought to bear and all parties have accepted the terms of settlement and the dispute is happily ended.

Newspaper Errors.

The News shows that the Tribune was full of errors yesterday in the target shooting and the Tribune discovers inaccuracy in the News. The two papers show conclusively that neither paper is up in mathematics which will be a very sad revelation to the community.

Just what the News means by "George Hertages private organ" the community is at a loss to understand. The News however when it picks out errors in the Tribune overlooks the greatest error of all, which is the indefensible error of publishing it at all.

Daggett, Not Dimond.

Washington, May 17.—The announcement of the appointment of W. H. Dimond to be Superintendent of the United States Mint at San Francisco is incorrect. He is the present incumbent and has tendered his resignation. His successor was appointed this morning by the President in the person of John Daggett of California.
